SIT Workshop to write the 23-24 school improvement plan

RIDE requires 3-5 priorities

Focus on ELA and Math - raise the scores; have subgroups

\*Why are 47% of students not meeting expectations? - ELA

Improve writing and continue with WIN - ELA

\*\*If I focus collectively on increasing writing opportunities, increases in scores will happen.

Math - 1. fluency and 2. having a consistent way to show their work when working digitally

Do work on paper - everybody does work on paper so when paper is given kids know automatically that they have to do work.

Create a template to make for students to show their work make thinking visible= use math practice standard - use explicit instruction to explain and practice template

Fluency - mental math - action step - make sure they are working on test taking strategies with tools available to them

Attendance - attention to WIN specific to boys - interest

Fund after school writing club for boys with a really cool name

School climate - attendance compare boys vs girls

Hawk cards - help increase attendance/motivation

Local authors that boys would find interesting
